[Coding Profile Code360](#)

Highly skilled and experienced Software Engineer with efficiency in developing web products using ReactJS, NodeJS and NextJS(14). Seeking a challenging role as a Full Stack Developer in a fast-paced environment. Targeting positions in Noida, Gurgaon, Delhi/NCR, Mumbai, and Hyderabad

### PROFILE SUMMARY

- Over **4 years** of experience in the IT sector, **specializing in NodeJS and Full Stack Development (AWS)**
- Effective in collaborating with backend teams to develop secure and high-performance integrations**
- Created reusable and dynamic **UI components** using **ReactJS, Redux, and TypeScript**, resulting in successful outcomes
- Enhanced real-time functionality** through **Web Socket integration** for **cloud-based applications** hosted on **AWS platform**
- Strong experience in setting up CI/CD pipelines**, automating build, deploying, and testing of **REST API's** for rapid software delivery

### TECHNICAL SKILLS

- Languages** Advance: Javascript, TypeScript, **Intermediate:** Java, Python
- Frameworks/Libraries:** **ReactJS, NextJS, Node.js**, NestJS, **Express.js**, React Native
- Web Development** ~ «°°@ → TailwindCSS, **UI/UX**, MUI5, HTML5, CSS3, LESS, SASS
- Database and Tools** **MySQL**, PostgreSQL, **MongoDB**, GraphQL, **Redis**, Kafka, **JIRA**, **BitBucket**
- Technology** REST, Git, **AWS(EC2,S3,CloudFront)**, Vim, **NGNIX**, Docker, **CI/CD**, gRPC, Github Actions.
- Packages** Axios, **Redux** Toolkit, Stripe, Redux-Thunk, Mongoddb, JWT, Webpack

### CORE COMPETENCIES

- Web-based Application Development
- Agile Development Methodologies
- Software Testing and Quality Assurance
- Project Support
- Cloud Computing
- Data Analysis and Visualization / Integration
- DevOps
- Stakeholder Coordination
- Technical Documentation

### EDUCATION

- 2020:** B.Tech. in Computer Science and Engineering CGPA 8.5, Amity University Noida
- 2015:** 10+2 High School in Web Development, Physics, Mathematics CGPA 8.8, Sainik School Ghorakhal

### CERTIFICATIONS

- Full-Stack Development Professional Certification from Coding Ninjas
- Professional Certification in Front-End Development from META
- Digital Marketing; IIT Delhi; 2021
- C, C++, Python, IOT; NIIT / NPTEL; 2020

### WORK EXPERIENCE

**AKRIVIA HCM | Software Development Engineer | India**

**Nov'23- Apr'24**

#### Key Result Areas:

- Engineered scalable **MERN** stack applications using **Typescript** by expertly integrating cloud technologies **AWS** and **Azure**, alongside Kafka and Service Bus messaging systems, resulting in a **22%** increase in system performance and a **25%** reduction in webpage latency using **SSR** and **CSR**.
- Extensive product development and a strong passion with **Generative AI**, driving innovative and user-centric product to completion.
- Orchestrated **NodeJS, ReactJS, NextJS**, and **ExpressJS** with end-to-end test coverage and **code reviews** for optimal software quality.

**TELSPIEL | Software Development Engineer | India**

**Feb'22- Nov'23**

#### Key Result Areas:

- Contributing to the development of web products with modern UI/UX using **TypeScript**, **ReactJS**, **NextJS**, and **TailwindCSS**.
- Developed **Single Page Applications (SPA) UI** and components using **Node environment, NPM, & ReactJS, NextJS** and utilized **Webpack** for seamless integration in Production using **ContextAPI**
- Implemented an asynchronous fetching of non-critical resources. Investigate and troubleshoot complex issues across our platform

**CDAC | Software Development Engineer | India**

**Dec'20 -Feb'22**

#### Key Result Areas:

- Led the development and enhancement of critical projects, **P2PCluster** and **ITMS** (Indian Transport Management System), optimizing **AFC** (Automatic Fare Collection) systems; wrote core features with well designed, testable, efficient code by using best software development practices
- Created a responsive and high-performance **micro-frontend** web application with cross-browser compatibility
- Integrated data from various **back-end services** and databases to Implement an increased File Transfer Rate by **60%** by using **Cache, Memory Management**. this helped in facilitating message broadcasting from central server and prevented the station servers from overloading with **NodeJS** and **ReactJS**

### PROJECTS UNDERTAKEN

#### Pizza Delivery App with Admin Panel

- Technologies: ReactJS, NodeJS, ExpressJS, MongoDB
- Developed an application that allows users to browse, customize, and order pizzas securely using the Stripe API for payments
- Designed an Admin panel for restaurant owners to manage orders, track deliveries, and update the menu

#### Full Stack E-commerce Application

- Technologies: ReactJS, NodeJS, ExpressJS, MongoDB
- Created a comprehensive e-commerce platform featuring product listings, detailed information, user authentication, shopping cart functionality, and secure payment processing
- Implemented a robust user review and rating system, fostering feedback sharing and facilitating product experience exchange
